South Shore Corridor Study

Facilitated by the City's Department of Planning and Development in partnership with the Regional Transportation Authority and the 7th Ward

“There is a fundamental sense of pride in South Shore, its history, the quality of its housing and the members of the community”

“Positive change can be achieved... by leveraging local strengths, growing the capacity of local organizations, applying tactical approaches in the near term and advancing into longer term capital and development projects”

“Steer investment and development by attracting investment to the places it has the best chance of success and can meet community needs”
